BUYERS HUNT YOU UP . . .
IN THE CLASSIFIED TELEPHONE DIRECTORY

THIS is why so many Brooklyn advertisers repeat their orders for Yellow Page advertising in the Classified Telephone Directory year after year. They know from results that Yellow Page advertising pays . . . that it is seen when the prospect is ready to buy.

This directory is not discarded after a few days use; on the contrary it is kept, and referred to frequently, for months. Advertising to telephone users is constantly suggesting "look in the Yellow Pages for who sells it." A survey shows that 9 out of 10 telephone users refer to the "Yellow Pages" when buying.

Rates are low enough to appeal to even the smallest advertiser. For further information call The Reuben H. Donnelley Corporation, Authorized Directory Representative, MUrray Hill 4-7000.

AIDS TO PROPER MAILING

Write name and address plainly and completely.

Place name and address of sender on all mail matter.

Prepay postage fully.

Use street and number in return address on your envelope and also letter heads.

Always address mail for city delivery to street and number, and request correspondents to do likewise.

Use designation North or South, West or East when it is a proper part of the address and save delay in delivery.

Insure valuable parcels.

Wrap parcel post carefully in heavy paper; and tie knots securely.

Do not use cards or envelopes smaller than a Government Postal Card.

Avoid the use of the word "City" as a part of the address. It may result in delay.

Avoid abbreviation of state names; Pa., Va., and La., frequently look very much alike when written. It is difficult to distinguish between Me., Mo., and Ind., or Cal., and Col. The abbreviation recommended for Colorado is Colo., and for California is Calif.

YOU WILL OFTEN GAIN A DAY'S TIME IN DELIVERY BY DEPOSITING MAIL AS SOON AS IT IS READY.

Pamphlets showing the hours "Mails Close" at the post office, and the time in transit between all of the large cities in the United States, may be had upon application to the Superintendent of Mails.

ECONOMICAL SERVICE

Why Naphtha?

. . . because cleaning in NAPHTHA preserves original beauty and lustre of Oriental and Domestic rugs.

RUGS are drenched for hours in distilled naphtha. Stains dissolve. Dirt and dust are gently removed by continual rinsing in thousands of gallons of naphtha. Cleans surface, pile and back. Destroys moth eggs. It does not remove the natural oils in rugs. Leaves the threads strong and full of life. Colors are restored to their warmth and beauty.

Also, we DRY STEAM every rug and carpet to raise crushed pile. All domestic rugs and carpets resized to insure against limpness.

A naphtha cleaned rug or carpet retains its life and body.

YOUR GOODS INSURED . . . OUR MEN BONDED . . . ORIENTAL WEAVING, ALTERING, BINDING . . . TAKING UP AND RELAYING.

THREE REASONS WHY YOU SHOULD HAVE US CLEAN YOUR RUGS - - -

1. Oriental rug importers know quality rug cleaning. We wash and clean more Oriental and Domestic Rugs than any other organization in the U. S.
2. The manufacturers of the world famous Gulistan, a domestic rug, employ our services.

GUILTY?

Is there one of us who doesn't owe a letter—to someone—some place . . . ? If we plead guilty, let's pass an easy sentence on ourselves: telephone that overdue letter—instead of writing! It's much more satisfying and costs so little, especially after 7 P. M. and all day Sunday when reduced rates are in effect to most places.

COMFORT

When you install extension telephones you add more comfort and convenience to your home. Always within reach, they save countless footsteps and the annoyance of running from one end of the apartment to the other every time the telephone rings. Your home deserves this added up-to-dateness, especially since it costs so little.

Our nearest Business Office will be glad to suggest convenient telephone arrangements for your home.

Why let distance keep you apart?

Next to a visit in person, a telephone trip to those away from home brings more pleasure than anything else.

It costs so little—yet means so much. Special reduced rates to most places after 7 P. M. and all day Sunday.

How much
does a Telephone
SAVE?

Saves the cost of making calls from public telephones. Saves catching colds through going out in bad weather to make calls; saves the cost of curing that cold—to say nothing of the probable pressing, cleaning and repairing bills.

Saves worrying about members of the family when they're delayed reaching home. Or worrying about relatives in other places.

Two or three nickels keep a telephone in your home! Why not order today at the Business Office?

Lonesome? Call up home. Out-of-town rates are low especially so to most places after 7 p.m. and all day Sunday.

IF NO ONE ELSE HAD A TELEPHONE

you would need neither a telephone nor telephone directory advertising.

But when thousands of people in this city do much of their buying by telephone and depend upon the Classified Telephone Directory to tell them where to buy, you'll find your sales message before them all the time will make your telephone pay dividends. Try it.

Every Home Needs This Help

—help that never takes a holiday
the telephone.

During the day it runs errands, saves trips in bad weather, keeps you in touch with friends, makes it easy for friends to keep in touch with you.

In the evening you can ask friends over, take care of a business matter or enjoy a chat with a friend or a relative near or far.

Any time, day or night, your telephone is always ready to bring help in an emergency.

The cost is perhaps no more than you and your family spend at public telephones. Why not order today at the Business Office and have your name in the next issue of the telephone directory?

WHEN
you have an hour's shopping to do and only ten minutes to do it . . . . .
TELEPHONE
and save time!

Personal Contact

Personal contact—with whomever you wish—in any part of the country. The telephone gives you this personal, voice-to-voice contact. It puts speed and convenience in the administration of business. A long distance call frequently saves a railroad trip; it often means a customer satisfied; or a carload of goods sold. Yet it costs so little—even to places far away!

Every Home Needs This Help

—help that never takes a holiday—the telephone.

During the day—it runs errands, saves trips in bad weather, keeps you in touch with friends, makes it easy for friends to keep in touch with you.

In the evening you can ask friends over, take care of a business matter or enjoy a chat with a friend or a relative near or far.

Any time, day or night, your telephone is always ready to bring help in an emergency.

The cost is perhaps no more than you and your family spend at public telephones. Why not order today at the Business Office and have your name in the next issue of the telephone directory?

A New Way TO GET TOGETHER

How would you like to talk to as many as six persons in the same or in different cities over one telephone connection? If you wish to conduct a business conference or just get the family together on an important holiday occasion, it can be arranged as easily and conveniently as though everyone were seated around a table. ✦ Just call or dial Long Distance and ask for the Conference Operator. She will quickly arrange to connect your telephone with those of the other members of your conference. It is as easy to use as regular long distance service. Ask the Conference Operator to quote you rates

WASTED STEPS

The average wife walks several miles in her daily household duties. Trudging back and forth to answer the telephone—accounts for many hundred needless steps.

How to save them? Simply have an extension telephone within a dozen steps of you at all times—whether you're in the living room, kitchen or bedroom. You'll never feel the cost—it's only a few cents a day for each extension telephone.

Has a friend moved away? Keep in touch with him by telephone. Rates to most places are reduced after 7 p.m. and all day Sunday.

WASTED STEPS

The average wife walks several miles in her daily household duties. Trudging back and forth to answer the telephone—accounts for many hundred needless steps.

How to save them? Simply have an extension telephone within a dozen steps of you at all times—whether you're in the living room, kitchen or bedroom. You'll never feel the cost—it's only a few cents a day for each extension telephone.

How much does a Telephone SAVE?

Saves the cost of making calls from pay telephones. Saves [illegible] errands through going out in bad weather to make calls, saves the cost of curing [illegible] to say nothing of the probable pressing, cleaning and repairing bills.

Saves worrying about members of the family when they're delayed reaching home. Or worrying about relatives in other places.

Two or three nickels keep a telephone in your home! Why not order today at the Business Office.

Why Waste Energy?

Mrs. Johnson knows the advantages of saving her energy. That's why she has extension telephones. They save her hundreds of steps a day. There's a telephone in the kitchen, one in the living room beside her easy chair, and, of course, one in the bedroom.

No wonder she looks and feels better than the rest of her friends!

Every Home Needs This Help

—help that never takes a holiday—the telephone.

During the day—it runs errands, saves trips in bad weather, keeps you in touch with friends, makes it easy for friends to keep in touch with you.

In the evening you can ask friends over, take care of a business matter or enjoy a chat with a friend or a relative near or far.

Any time, day or night, your telephone is always ready to bring help in an emergency.

The cost is perhaps no more than you and your family spend at public telephones. Why not order today at the Business Office and have your name in the next issue of the telephone directory?

IMPORTANT

Before enrolling in any school—SEE the classrooms, equipment, teachers and student body. This costs nothing and saves many regrets. The age of the institution plus proper environment are as much a part of what a school has to offer as its courses.

COMFORT

When you install extension telephones you add more comfort and convenience to your home. Always within reach, they save countless footsteps and the annoyance of running from one end of the apartment to the other every time the telephone rings. Your home deserves this added up-to-dateness, especially since it costs so little.

Our nearest Business Office will be glad to suggest convenient telephone arrangements for your home.

STEWART A. BURKLAND, President, says: Your FURNITURE is as much your HOME to us as it is to you. We store only HOUSEHOLD FURNITURE. It is our boast, the honesty of which is witnessed by our superior reputation, that your furniture will be returned in *at least as good* condition as we receive it. WHAT THE TELETYPEWRITER SERVICE IS, AND HOW IT OPERATES

The teletypewriter looks and operates like an ordinary typewriter. Messages, reports, inquiries, typed in your office are *instantly* and identically reproduced on any other teletypewriter to which it is connected . . . 300 feet or 3.000 miles away.

As a subscriber to this Bell System service, your typist simply calls the desired teletypewriter by typing its number and "central" immediately makes the connection.

TEN OUTSTANDING FEATURES

Availability . . .	The same as telephone service. Teletypewriter "central" will connect any subscriber anywhere in the United States at any time to any other subscriber.
Speed	Connections are fast—comparable to the telephone.
Two-Way Service . .	Subscribers can type back and forth on the same connection, making inquiries and replies possible.
Accuracy . . .	The copy received is identical with that transmitted . . . Ambiguities in text can be clarified during the connection.
Simplicity . .	Any competent typist can operate it.
Privacy . . .	Communication is direct between sender and receiver.
Flexibility . .	Letter sized paper or your own forms for orders, reports, deliveries, and similar matters can be used . . . As many as six copies can be made by each teletypewriter.
Permanent Records . .	Each subscriber has typewritten copy.
Low Cost . .	A most economical form of written communication.
Dependability . .	A Bell System service.

Every Home Needs This Help

-- help that never takes a holiday —the telephone.

During the day it runs errands, saves trips in bad weather, keeps you in touch with friends, makes it easy for friends to keep in touch with you.

In the evening you can ask friends over, take care of a business matter or enjoy a chat with a friend or a relative near or far.

Any time, day or night, your telephone is always ready to bring help in an emergency.

The cost is perhaps no more than you and your family spend at public telephones. Why not order today at the Business Office and have your name in the next issue of the telephone directory?

How much
does a Telephone
SAVE?

Saves the cost of making calls from public telephones. Saves catching colds through going out in bad weather to make calls; saves the cost of curing that cold—to say nothing of the probable pressing, cleaning and repairing bills.

Saves worrying about members of the family when they're delayed reaching home. Or worrying about relatives in other places.

Two or three nickels keep a telephone in your home! Why not order today at the Business Office?
